To Receive Election Returns—

At the Commercial club luncheon today C. C. Presley presented the matter of the receiving of election returns in the city. He said that a plan was on to receive a full press report at the Tabernacle if enough people were interested to bear the expense. Duplicates would be sent elsewhere, he stated, if desired. The members at the luncheon heartily endorsed the move and Mr. Presley will undertake the raising of the amount.

The H. C. of L.—

The high cost of living has struck the newspaper office as well as the householder. For example: A few months ago print paper was bought in any quantity at \$2.90 per 100 pounds; in April the price was \$3.25; in July the price was \$4; in August the Courier, in conjunction with other publishers, purchased a car of paper at the special price of \$4.25, but on account of the car shortage the paper did not arrive on time, and 500 pounds were ordered on the 15th at \$5.25; another order was made on the 28th, and the price was \$7.25; what it will be when the present supply on hand is exhausted can not be foretold. This shows an increase of more than 140 per cent during the year, with subscriptions still at former rates.

WHO WILL PICK WHITE HOUSE TULIPS?

Washington, Oct. 30.—Mrs. Woodrow Wilson has had several thousand tulip bulbs set out in the White House gardens. They won't bloom until after March 4.

A Vocational Back.

A certain professor who was a remarkably fine, well built man, was staying at a village some time ago.

He happened to pass two men carting flour and overheard this conversation:

"Say, Bill, who's that?"

"That's the professor what's staying here," was Bill's reply. "They say as how he's very learned."

"What a spelt man," rejoined the other. "I never in my life seed such a buck for a sack of flour."—London Tit-Bits.

Daughter at Westons—

A daughter was born to Mr. and Mrs. Cecil Weston, Sunday.

Each Gets a Buck—

Stephen and William Jewell returned Saturday night from the Riddle section, bringing in two bucks, each having killed one. They were unable to bag any game until after the rain.

Dance at Spence Hall—

More than 300 people attended the republican speaking at Spence hall Saturday night, and at the close of the meeting the floor was cleared and the nine-piece orchestra taken from Grants Pass played for several hours while young people of the valley indulged in dancing.

Glad to Get Home—

R. B. Brown, of Applegate, arrived here this morning from Leland, Iowa, his old home, where he spent the past month visiting. He said he was a happy man when he reached Portland, and the nearer home he gets, the better he feels. While in Iowa he was in the midst of a real blizzard.

Ship Much Chrome Ore—

The Colliard & Moore chrome mine near Takilma is working a dozen men continuously and is hauling 30 to 40 tons of ore by teams daily to Waters Creek terminal. Last week the company bought another fine team from Ed Lind. The latter part of the week workmen on the property uncovered two more veins of ore.

Halloween Dance—

Waldorf hall, Tuesday night. Dancing 8 till 1. 889

Joy Riders Borrow Ford—

Joy riders took possession of the new Ford belonging to George Wells, of Holland, on Saturday night, while Mr. Wells and family were attending the republican speaking at Spence hall. The machine was found on the Kerby road about a mile from the hall, turned over, with the windshield broken, a tire wrecked and an axle bent. There was no indication of the identity of the miscreants.

Englewood Dairy—

The best milk, cream and ice cream. Phone 222.

Illinois Valley Woman Dead—

Mrs. Mary Morey, widow of Dr. Morey, of the Illinois valley, who has made her home with her daughter, Mrs. Minnie Masters, was found dead in her bed on Friday morning. The deceased was over 70 years of age and is survived by two sons, Elmer Morey of Takilma and Alvin Morey of Crescent City, and two daughters, Mrs. Minnie Masters of Takilma and Mrs. Olmstead of Olympia, Wash. The funeral was held Sunday afternoon, with interment at the Kerby cemetery.

Seine Kill Steelheads—

Claude Bardon has returned from Gold Beach, where he has been for a number of months past engaged in commercial fishing. He expects to remain here till after election. Mr. Bardon has a number of photographs taken at the mouth of the Rogue that show conclusively that the seine must be done away with in the interests of the steelhead trout. One photo shows a 3½-pound steel head cut almost in two by becoming entangled in the seine, and many hundreds of them are thus killed, according to Mr. Bardon. The seine has only a four-inch mesh, permitting only the smallest steelheads to escape. The drift nets have an 8½-inch mesh, through which the steelheads escape.

COME 40 MILES TO REVIVAL MEETINGS

Forty miles is a long distance for one to travel to a revival meeting, yet last night at the tabernacle, in answer to inquiries, there were some who came that distance to swell the large audience. The male quartet, consisting of Messrs. Vessey, Isham, Kirker and Edgerton, sang two selections, one of which, "The Church in the Wilderness," was especially well received.

Evangelist Mathis' text was, "Behold I stand at the door and knock; if any man hear my voice and open the door I will come in."

"There are three doors to the heart of man," said Mr. Mathis, "the doors of love, of reason, and of fear. The son of God will come into no man's life unless he is welcomed, and there are some people who think it a sign of intellectual superiority to refuse a welcome. Then there are two kinds of unbelievers, the honest and the dishonest. I have a lot of sympathy for the honest doubter, who is willing to be led to the light, but there is a big difference between a doubter and a dodger. Selfishness is obviously the motive in most cases for the refusal to open the heart's door to the pleading Visitor, and when a man lives for his little contemptible self he is no account either to himself or any one else. When you look deep into your heart you really do believe, but will not acknowledge and surrender."

Tabernacle Notes

Four accepted the invitation last night to take the step for a better life.

There will be no service tonight. Cottage prayer meetings to be held in homes in various parts of the city have been inaugurated, the time to be from 10 to 10:30 each morning.

"Conversion" will be the subject at Tuesday night's meeting.

"Every one who can should attend the football game on Monday afternoon between Klamath Falls and Grants Pass," said Mr. Mathis in making the announcements. "Clean sports will do us all good."

CLUB IS HOST.

(Continued from Page 1)

10 weeks in advance, thus doing away with the weekly soliciting. The suggestion was immediately endorsed. About 40 of the tickets were pledged in a few minutes, and it is expected that the number will reach 75 or 80. The tickets are for club members only, but invited guests of members will be welcomed as usual at the luncheons up to the capacity of the assembly room of the Commercial club. The tickets will also be transferable, so that in case the holder can not be present he can be represented by proxy.

Following the luncheon and the address by Prof. Maris, a committee from the club membership met with the county agricultural advisory committee and discussed plans for the carrying on of the county agent work in Josephine county next year. A year ago the county court appropriated \$1,250 and the Commercial club another \$100. These amounts were duplicated by the state. The expense has been somewhat more than the \$2,700 thus made available, and the advisory committee asks that the club lead its assistance in making the county fund \$1,500 for the next year, the state meeting whatever amount the county gives. At the request of the committee, the Commercial club will join with the committee in making a representation of the conditions to the county court next Wednesday, when the tentative budget is prepared, and will seek to have the amount increased to \$1,500. The committee from the Commercial club to act with the agricultural advisory committee will consist of R. B. Miller, H. L. Gilkey, Sam Baker, J. D. Fry, Wilford Allen, Asa Holcomb, T. P. Cramer, H. C. Bobzien, C. H. Demaray and Dr. Bywater. The combined committee is to meet the county court Wednesday at 1:30 o'clock.

Kongo tattooing.
In the Kongo colonies of Belgium, both men and women are tattooed according to their status in society. A woman of high caste will have a design not unlike a zouave jacket worked upon her back and it would seem that the native is as content with this mode of covering as if it were a substitute for clothing. By injecting the juice of certain herbs the scars left by the tattooing process retain a swollen appearance, giving the effect of bas relief work.
The thorns of the acacia are generally used as a needle, while a certain black clay is used as a coloring medium.—London Mail.
